Candidate for B.S. in Commerce, Minor in Data Science | GPA: 3.53
Information Technology Concentration, Analytics and AI Track
*(**Transferred from Yonsei University**; Completed mandatory military service during a leave of absence)*

## WORK EXPERIENCE

*Teaching Assistant,* **University of Virginia McIntire School of Commerce,** Charlottesville, VA ***October 2026 – Present***
- Support 90 students on business writing, audience analysis, presentations, and professional communication.
- Evaluate written assignments and presentations using course rubrics, delivering individualized feedback to help students communicate complex ideas with greater clarity, structure, and confidence.

*Product Manager Intern,* **Quotain,** New York City, NY, USA ***May 2026 - August 2026***
- Built an automated cold email outreach system and multilingual support feature, translating user needs into real products.
- Analyzed 5 competitors to identify usability gaps, informing the team's decision on conversational model development.
- Identified a 13% increase in reply rate through an A/B test of the outreach system across 300+ users, leading the team to adopt a new strategy.

*Research Intern,* **Global ESG Foundation,** Remote, New York City, NY, USA ***March 2025 - May 2025***
- Led three interns in building a SQL-based ESG and CSR benchmarking workflow covering three industries.
- Analyzed ESG performance trends using IBM SPSS and produced reporting dashboards with Power BI, reducing manual reporting time by 5 days.

*Sergeant (KATUSA),* **Republic of Korea Army,** Pyeongtaek, South Korea ***August 2023 - February 2025***
- Served as a KATUSA (Korean Augmentation to the United States Army) embedded in United States Army infantry units deployed to South Korea.
- Promoted early to Corporal after ranking in the top 10% in performance evaluations across the battalion.
- Led and trained a 4-person team, achieving mission readiness and equipping enlisted personnel with best practices and standard operating procedures in 5+ missions and training exercises.
- Interpreted for ROK Army and U.S. Army joint operations. Participated in 15+ major training exercises, including joint ROK-U.S. training exercises, Live-Fire and Situational Training Exercises, and Security Assurance Operations.

*Junior Consultant Intern,* **House of Analytics,** Jakarta, Indonesia ***August 2020 - December 2020***
- Analyzed relationship-manager data and developed Power BI and Tableau dashboards that improved the efficiency of a performance-evaluation system for an Indonesian bank.
- Developed "Insurance Customer Centricity Market Sensing" analysis alongside the project manager by conducting in-depth analysis of the insurance industry in Indonesia and Southeast Asia.
- Presented analysis to a state insurance company, informing their 2021 digital transformation initiative across internal tools and customer-facing operations.

## EXTRACURRICULAR EXPERIENCE

*Social Media Chair, Philanthropy Chair,* **Lambda Phi Epsilon,** Charlottesville, VA ***November 2022 - Present***
- Directed a new external relations strategy, increasing unique social-media interactions by 36% across all pages.

*Treasurer, Competitive Team Member,* **Pool and Billiards Club at UVA,** Charlottesville, VA ***April 2025 - Present***
- Created financial statements, funding requests, and inventory records using Microsoft Office Suite.
- Managed the procurement and maintenance of over $3,000 in pool equipment, ensuring consistent availability for members throughout the school year.

*Student Consultant,* **180 Degrees Consulting University of Virginia,** Charlottesville, VA ***August 2025 - Present***
- Developed a new marketing strategy for an education collaborative in Texas, using R and Excel to analyze gaps and deficiencies in their current approach.
- Designed a centralized SOP documentation system, streamlining workflows and improving the clarity of training and emergency-response procedures for an advocacy organization in Virginia.
